

Meet a Champion

Meet Corbin, a silly 13-year-old and the champion for Pennsylvania. Corbin entered the world with a life-threatening hernia. His organs traveled to his chest, causing malformations in his heart and lungs. Surviving an important, life-saving surgery, Corbin now lives happy and healthy.

Because of Children's Miracle Network, Corbin received the care he needed. By participating in American Girl's Little Bitty Miracle, you, too, can help children like Corbin.
